Hi, please find my submission below. I started the questionnaire, but actually do not have time at present in the midst of other work commitments (yes, on a Sunday evening), so here's the summary; my answers to Q1 and Q2.

As a small business owner I am conscious that a lot of my time is devoted to book keeping, accounting and tax compliance; a much higher proportion of the time than, for example, in a large company with many more person-hours devoted to the day to day running of the business. Thus I would really really value if the VAT obligations for small businesses were kept as simple and straightforward as possible!

The person hours involved in the new process; learning and implementing. As small business owners we are not experts in tax, law, software etc. but rather of our core business matters. Please, please keep the process as simple as possible so that smaller businesses in particular are able to conduct business with as much ease as possible.

Kind regards
