Subject: [External] VAT Modernisation Consultation

Dear Revenue,

Thank you for contacting me about the VAT modernisation and discussions that are taking place. I have a small business (farm) and make my VAT returns every 2month period. The system currently works fine for me and have no issues. However I can understand the need to modernise, and have a little knowledge of the capacity of IT in this regard, but beyond that I am afraid that I have little to contribute at present.

I hope that this reply is of some use. Thank you for contacting me, I really appreciate it and also thank you for your continued attention.

Yours sincerely
