Q.1 What are your views on the proposal to introduce real-time reporting for B2B and B2G transactions?

I already do this in NI and find it takes more time so not a fan and I have to use a package.

Q.2 What matters should be considered in planning for a transition to a new VAT Reporting system?

To differrentiate between someone like me with one transaction per 2 month period and a large company. A landlord like me with one property and a very easy return does not want to have to pay for a package to submit VAT
