Instruction notes for completing this form

1. An accounting period is a period of two consecutive calendar months; the first period in any year being January / February. A Mineral Oil Tax on Vehicle Gas (MOT VG) Return and Declaration and accompanying payment must be made to Revenue within one month of the end of the accounting period concerned.
2. The “No. of units supplied in the period” figure must include “self-supplies”; that is, vehicle gas supplied by the supplier to a vehicle gas dispenser for that supplier’s own consumption. Self-supply of vehicle gas is also liable to the tax.
3. The MOT VG Return and Declaration is based on vehicle gas supplied in units per megawatt hour (MWh) measured at gross calorific value (GCV).

The MOT VG rate of €9.36 per MWh at GCV specified in Schedule 2 of Finance Act 1999 is composed of a carbon and non-carbon component. Effective from 1 May 2023 the carbon component rate specified in Schedule 2A of Finance Act 1999 is €8.77 per MWh at GCV. The non-carbon component rate of MOT VG at GCV is €0.59 per MWh. This is calculated by taking the carbon component rate of €8.77 at GCV from the overall rate of €9.36 at GCV.

4. A relief from the carbon component of MOT is available for the portion of vehicle gas that is composed of biogas. The overall rate of MOT on vehicle gas is reduced by the carbon component rate of €8.77 per MWh at GCV. This gives an effective rate of €0.59 per MWh at GCV on biogas supplied for use as fuel in a motor vehicle. The biogas relief is applied at source. The supplier applies the relief by declaring the amount of biogas supplied on the MOT VG Return and Declaration and paying the reduced rate.
5. This MOT VG Return and Declaration must be signed by the supplier concerned or by a person duly authorised in accordance with Regulation 43 of the Mineral Oil Tax Regulations 2012; S.I. No. 231 of 2012 (as amended). That person must state their position within the business, e.g. Company Secretary, Director, partner, etc. as appropriate.
6. All records in relation to this return and declaration must be kept for 6 years. They may be kept in an electronic form provided that they can be produced as required in printed form.
