Response Number 110

Q.1 What are your views on the proposal to introduce real-time reporting for B2B and B2G transactions?

Not really intereseted perfer the existing system

Q.2 What matters should be considered in planning for a transition to a new VAT Reporting system?

too complex and I have to wait for some invoices / receipts so will not work for me

Q.3 If your business is currently subject to a VAT reporting programme in another EU or non-EU country, can you please share best practice, recommendations or lessons learnt?

No

Q.4 Have you any observations, concerns or recommendations on a move to mandatory electronic invoicing for B2B & B2G domestic VAT transactions?

yes as I don't have the technology for it and it will be too complex and costly for me to implement

Q.5 Revenue is particularly interested in hearing views from businesses that are already engaged in eInvoicing Public Bodies within Ireland or engaged in B2B eInvoicing throughout Europe and beyond. How did you prepare and what challenges prevailed in your preparations for eInvoicing?

I don't have the technology for it and it will be too complex and costly for me to implement

Q.6 What suggestions would you offer in Ireland’s arrangements for a mandatory B2B and B2G eInvoicing programme?

I wouldn't like it to happen as it is too complex and most sole traders are not ready for this and don't have the accounting software to report on such transactions

Q.7 Revenue are cognisant that small businesses may have different perspectives and requirements to large businesses, so what information prompts would you find useful for businesses in completing the VAT return?

Only to have parts of the form that are for sole traders listed so that I can't make mistakes when filing a return
