Q.1 What are your views on the proposal to introduce real-time reporting for B2B and B2G transactions?

I support it.

Q.2 What matters should be considered in planning for a transition to a new VAT Reporting system?

I also think that when this change is made, a new system which requires that VAT should be paid direct to Revenue in the same way as WHT is taken. This would reduce admin for small businesses. It could, at least be brought in for B2G and other paying businesses above a certain threshold of payments.

Q.3 If your business is currently subject to a VAT reporting programme in another EU or non-EU country, can you please share best practice, recommendations or lessons learnt?

na

Q.4 Have you any observations, concerns or recommendations on a move to mandatory electronic invoicing for B2B & B2G domestic VAT transactions?

It would help avoid tax evasion. I would encourage it.

Q.5 Revenue is particularly interested in hearing views from businesses that are already engaged in eInvoicing Public Bodies within Ireland or engaged in B2B eInvoicing throughout Europe and beyond. How did you prepare and what challenges prevailed in your preparations for eInvoicing?
