PIT Strategy

PIT Strategy

- Overall the proposed PIT approach received a positive reaction from the PSDA. The approach to supporting employer testing in PIT appears to be a workable solution.

Submission Updates

Submission Update

- After some discussion it was agreed that the month would not be included in the header record of the submission.
- Decision also taken to remove 'submission type' from the header record of the submission – all payslips will be linked so we'll know when an employer is deleting a record and replacing it with another.

AOB

AOB

- The PSDA proposed scheduling a Payroll Scenarios/Corrections Workshop with Revenue. This will be arranged once PSDA have provided us with scenarios to work through.
- Request from PSDA for Revenue to provide FAQ's – no 'frequently' asked questions at this stage but we'll consider publishing queries and responses. PSDA confirmed they've no concerns regarding commercial sensitivities if we do this.
