

Office of Exit/Entry Codes

SAD Box 29: Exports/Imports

Please use following link:

[Transit Customs Office Information](#)

Notes:

For Export Declarations, Box 29 should contain the Office of Exit from the community. Where goods are shipped on a single transport contract, and are trans-shipped in a major European “Hub”, Box 29 would be a Customs Office in Ireland.

For Import Declarations, Box 29 should contain the Customs Station where the goods first enter the community. For the majority of Irish Freight this will be a Customs Office in another member state. This would only be a Customs Office in Ireland where the goods have been directly imported and have not been trans-shipped in another EU country.
