

eCustoms Helpdesk Notification

Number:	Ref: 20/2024
Subject:	NCTS-P5
Who should read:	All those involved in Transit Procedures and in the submission of Transit Declarations
Related Notification:	eCustoms Notification 05/2024
Issued by:	eCustoms Helpdesk
Queries to:	UCCITDev@revenue.ie
Issue Date:	23 July 2024

1. Introduction

As part of the Union Customs Code (UCC) Work Programme, Revenue, working collaboratively with traders and software companies, deployed NCTS-P5 on 26 February 2024.

Update

Soon after we deployed NCTS-P5 we identified technical issues which we had to address with our IT provider before we could allow traders to migrate over to NCTS-P5.

These technical issues have been satisfactorily resolved and NCTS-P5 is now successfully processing transit declarations.

In light of the delays in getting NCTS-P5 working properly, Revenue will extend the migration window to facilitate trade in the move from NCTS-P4 to NCTS-P5. The extended migration window will now be open until 20 October 2024. From 21 October 2024 it will no longer be possible to lodge transit declarations or to present an inbound transit at a temporary storage facility into NCTS-P4.

Revenue will continue to engage with traders to facilitate and support them to ensure they will be operational in NCTS-P5 by the end of the migration window. We encourage trade to migrate to NCTS-P5 well in advance of this end date. Trader testing of NCTS-P5 functionality is available in our test environment (PIT). We will host an online NCTS-P5 information session shortly and will send you an invitation in due course.

2. Further NCTS-P5 Functionality

We will be deploying the 'export followed by transit' functionality later this year. Therefore, traders moving goods under the 'export followed by transit' procedure should continue to submit the required IE507 and IE590 messages in AES until further notice. For RoRo movements the transit MRN and all associated export MRNs should continue to be included in the Pre-Boarding Notification (PBN).
