Revenue deployed NCTS-P5 for the processing of transit declarations on 26 February 2024.

To facilitate trade in the move from NCTS-P4 to NCTS-P5 Revenue gave an extended migration window to trade up until 31 December 2024.

From 1 January 2025 it will no longer be possible to lodge any new messages into NCTS-P4.

All outbound transit movements being created, and inbound transits being arrived after midnight on 31 December 2024 must be submitted into NCTS-P5.

All inbound transit movements that you intend to arrive in NCTS-P4 must be fully completed (at the status goods released) in NCTS-P4 by midnight on 31 December 2024. **Failure to do this will cause your declaration to get stuck and it won't be possible to release the goods.**

Revenue strongly advises you to move across to NCTS-P5 immediately so that we can ensure availability of adequate and timely support should you encounter issues resulting in potential delays to the movement of your goods.
