

ROS Sub-user Permissions

This document is a general guide to sub-user permissions only. There are some services which do not fall within these guidelines. Examples:

- Employer Payroll Services – permissions are explained here : <https://www.revenue.ie/en/online-services/support/documents/ros-help/sub-user-and-agent-permissions-for-employer-services.pdf>
- SA2 application is available to all sub-users

Sub-user permissions may be amended in the Admin Services tab by selecting the sub-user and clicking “Revise”.

Permissions for Taxes and Reporting Obligations

There are four options, each succeeding option adds further access rights:

1. **No Permissions** – the user has no access to the tax or reporting obligation
2. **View** – the user may view information related to the tax or reporting obligation but for most taxes and reporting obligations, the user may not complete returns or make submissions. View is the default permission for new sub-users.
3. **Prepare** – the user may complete returns but may not submit to Revenue – this permission does not apply to Revpay related (payment only) returns.
4. **File** – the user has full access to submit returns to Revenue and may view Revenue Record items for that tax or reporting obligation

Note that “Inbox Administration” permission gives access to all Revenue Record items regardless of the above permissions.

Permissions for Administration Services

ROS Administrators may delegate most of the ROS Administrator functions to sub-users. However, there is only one true ROS Administrator who can update the ROS Profile details. The default setting for new sub-users is **No** administration permissions.

Sub-users cannot update their own permissions.

Other Permissions, Identifiers and Restrictions

- **Suspicious Transaction Reporting (STR)**

This permission is required to view STR items in the ROS Inbox.

Note that File permission for STR must also be given if the sub-user needs to submit STR reports.

Money Laundering Reporting Officer (MLRO)

- Please select 'Yes' if this certificate is for a MLRO In September 2020, Revenue introduced changes to how Suspicious Transaction Reports (STRs) are submitted. Revenue no longer accepts hard copy (paper) STRs from that date onwards. Reporting Entities and Money Laundering Reporting Officers (MLROs) are required to submit all STRs to Revenue, using Revenue's Online Service (ROS) only. Reporting Entities should continue to submit STRs to both Revenue and the Financial Intelligence Unit (FIU), as dual reporting remains a requirement.

Yes No

- **Customs, Transit, EMCS**

If the sub-user certificate is to be used for Customs, Transit or EMCS, the appropriate identifier must be added.

SEED Number

- If this certificate belongs to a SEED user, you may enter or update their SEED Number below.

EORI Identifier

- If this certificate is for an ICS Carrier who submits declarations via an agent, you may enter their EORI Identifier below.

- **Client Restrictions**

Agents/Advisories (TAINs) have the option to restrict sub-users from specified clients.

This is done by revising the sub-user’s permissions to add Restrictions.

We recommend that TAIN principals never link to themselves as clients as it may not be possible to restrict access adequately.

Click the Restrictions button and then tick the clients you wish to restrict the user from. **Note that Inbax Administration permission allows access to Inbax items for restricted clients.**
