Executive Summary

These guidelines are designed to provide information in relation to FATCA Reporting in Ireland.

1. Section 1: Customer Registering for FATCA

1.1 Register a FATCA Reporting Obligation

This step can only be completed once the Customer is registered for ROS. If the Customer is not registered for ROS, refer to Appendix I, Section 5.1.

If the Customer is only being registered with Revenue in order to file a FATCA report to fulfil their FATCA Reporting Obligations (i.e. they do not have a tax obligation in Ireland) please refer to Appendix I, Section 5.2 in order to obtain a Reporting Entity Number.

For queries relating to registering a Reporting Obligation, please contact Revenue's VIMA (VIES, Intrastat and Mutual Assistance) office:

Via MyEnquiries, selecting AEOI (Automatic Exchange of Information) and FATCA

Telephone at +**353 1 7383652**

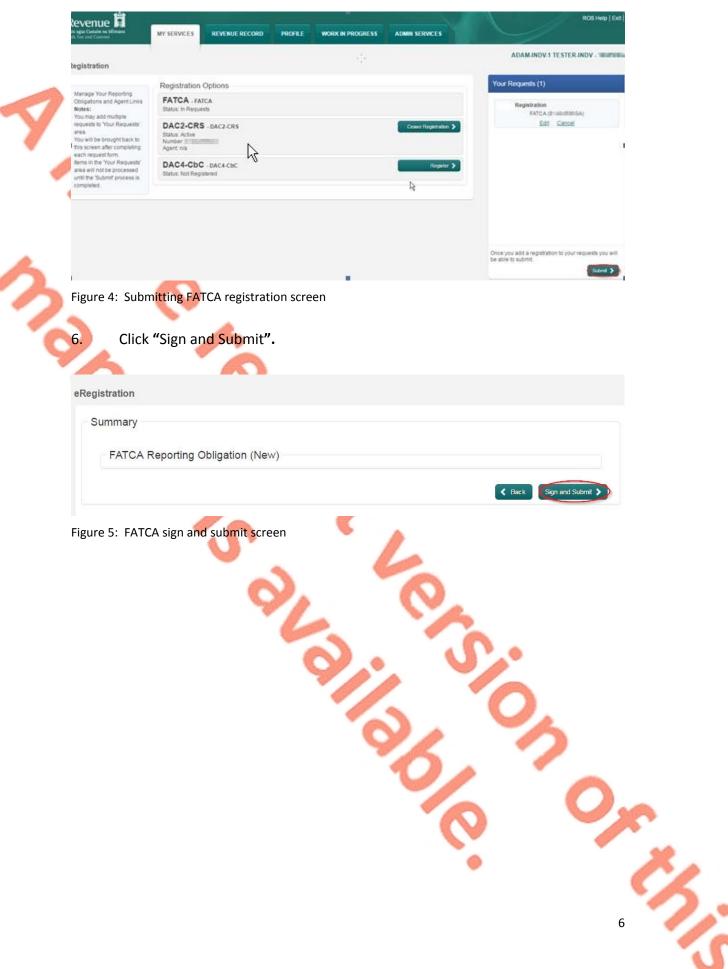

Follow steps 1.1.1 to 1.1.10 to register a FATCA Reporting Obligation.

- 1. Log into ROS.
- 2. Under the "My Services" tab, select "Manage Reporting Obligations" from the Other Services section.

2. Section 2: Agents Registering Clients For FATCA

This section is only relevant where the user of the system is an Agent. If the user of the system is a Customer, please refer to Section 1 above.

2.1 Registering an existing Client for a FATCA Reporting Obligation

To link to an existing Tax Registration or Reporting Entity for whom you are not current Agents, please refer to Section 2.2 – Agent linking to new Customers/Clients for Reporting Obligations.

For queries relating to registering a Reporting Obligation, please contact Revenue's VIMA (VIES, Intrastat and Mutual Assistance) office:

- Via MyEnquiries, selecting AEOI (Automatic Exchange of Information) and FATCA
- Telephone at +353 1 7383652

Follow steps 2.1.1 to 2.1.16 to register a FATCA Reporting Obligation.

- 1. Log into ROS.
- Under the "TainServices" tab, locate the Customer using Client Search or 2. Client List.

Agent will be redirected to the "Client Services" tab for the relevant Customer. "Reporting Obligations" must be ticked.

2.2 Agent linking to new Customers/Clients for Reporting Obligations

This section is to be used by Agents who wish to link to a Customer/Client to whom they are **not** already linked on ROS to carry out FATCA Reporting Obligations. Please note that in the example below, the Customer/Client is already registered on ROS for the FATCA Reporting Obligation. If an Agent wishes to link to a Customer/Client and the Customer/Client is not already registered for the FATCA Reporting Obligation, please refer to Section 2.1.

Agent logs onto ROS, access "Tain Services".

2	Vou can file returns, make payments and manage bank details for clients through Client Services. Select a client below to view their available Client Services. Client Search Search by registrations number: Tax Registrations () Select a tax type Enter registration no. Search by name: Enter sumame Search I
	Manage Tax Registrations Manage Client Registrations Please use this option to update, add or cancel Agent/Client links and tax registrations • Tax Registrations • Tax Registrations Select a tax type • Enter registration no. Select tax type Select tax type • Select tax type • Manage ◆
	Properties Find Properties You can file and/or pay the Local Property Tax for the properties you manage. Click on View Property List to see the properties you can access. View Property List Export Property List
	Upload Form(s) Completed Offline Select the type of return from the drop-down list to upload a return completed offline. You can upload a P35L file and any of the Financial or Withholding taxes through Client Services. Select a return type
	Agent Employer Services
	Request RPNs by file upload Submit payroll by file upload
	Other Services MyEnquiries P2C Search Mobile Access Manage Financial Statements Upload Multiple Financial Statements View Property History Trust Register Functions Upload Multiple Financial Statements Upload Multiple Financial Statements

Go to section "Manage Tax Registrations".

3. If an Agent wishes to register an existing Tax Registration for a Reporting Obligation, select "Tax Registrations" radio button, followed by "Tax Type" (choose existing tax type for Company), enter the "Tax Registration Number", along with the "Name" and select "Manage Reporting Obligations" from the drop-down menu. To complete this step, click "Manage".

3. Section 3 – Customer Submitting FATCA Returns

The following section details how Customers upload FATCA returns on ROS. Section 3.1 details uploading Nil FATCA returns, Section 3.2 details uploading XML files.

XML Nil Returns may also be uploaded. Please refer to <u>FATCA XML Schema Guide</u> (V2.0)

3.1 Customer Submitting Nil FATCA Return.

1. Customer logs on to ROS, under "Upload Form(s) Completed Off-Line" select "FATCA" from the drop-down list. Click "Upload Return".

The ROS upload screen is then presented to the user. If the user wishes to make an election under Regulation 6(2) of the Financial Accounts Reporting Regulations 2014, they should ensure that the check box at the top of the screen is selected.¹ This checkbox is also relevant for selection of the Nil return option.

2. Tick election box if applicable. Click "Submit Nil Return".

3.2 Customer Submitting FATCA XML File²

For efficient processing, it is recommended that individual FATCA XML files should not exceed 10MB in size. The absolute maximum file size is 30MB or 20,000 records. A file size of greater than 30MB or 20,000 records will be rejected by ROS.

1. Customer logs on to ROS, under "Upload Form(s) Completed Off-Line" select "FATCA" from the drop-down list. Click "Upload Return".

1.

4. Section 4 – Agent Submitting FATCA Returns

The following section details how Agents upload FATCA returns on ROS. Section 4.1 details uploading NIL FATCA return, Section 4.2 details uploading XML Data returns.

XML Nil Returns may also be uploaded. Please refer to <u>FATCA XML Schema Guide</u> (V2.0)

4.1 Agent Submitting Nil FATCA Return.

Agent logs on to ROS, search for Client using Client Search or Client List.

"Reporting Obligations" must be ticked.

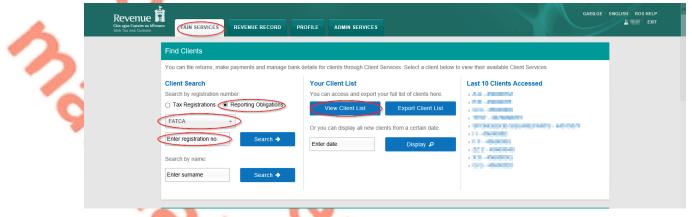

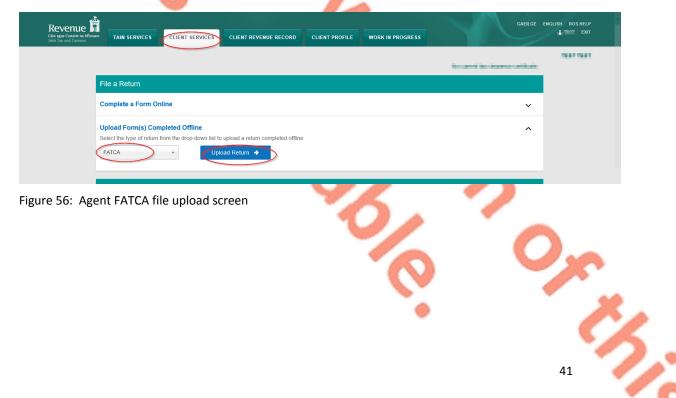

Figure 55: Agent Client search screen

2. In the section marked "Upload Form(s) Completed Off-Line", select FATCA from the dropdown list and click "Upload Return".

The ROS upload screen is then presented to the user. If the user wishes to make an election under Regulation 6(2) of the Financial Accounts Reporting Regulations 2014, they should ensure that the check box at the top of the screen is selected.⁴ This checkbox is also relevant for the selection of the Nil return option.

3. Tick election box if applicable. Click "Submit Nil Return".

7. The Agent will receive a new notification in the Client Revenue Record to confirm they have submitted a FATCA Nil Return. Click on the Notice Number for confirmation of the Nil Return submitted.

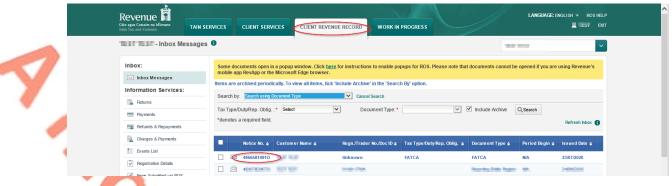

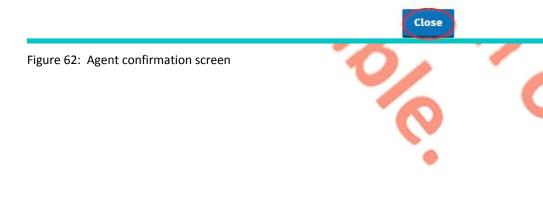

Figure 61: Agent Revenue Record screen

8. The following notice appears which the Agent may wish to print for their records. Click "Close" to return to Revenue Record.

The following details were used to generate your nil-return:

- 😣 Country of Tax Residence: 🔤 🔤
- 5 Name: All GLOBAL ENERGY DEVICAPIEN, FUND PLC
- 6 Filer Category: Harmenter
- Address CountryCode: III
- 8 Address: The Login Par House Fill Building 1
- 🥺 Election made under Regulation 6(2): 🖮

4.2 Agent Submitting FATCA XML File⁵

For efficient processing, it is recommended that individual FATCA XML files should not exceed 10MB in size. The absolute maximum file size is 30MB or 20,000 records. A file size of greater than 30MB or 20,000 records will be rejected by ROS.

1. Agent logs on to ROS, search for Client using Client Search or Client List.

" Reporting Obligations" must be ticked.

Revenue 📓

The following notice appears which the Agent may wish to print for their records. Click "Close" to exit and return to Client Revenue Record screen.

FATCA Acknowledgement

✓ Step 1 - Received by Revenue

^(†) Step 2 - Submitted to the IRS

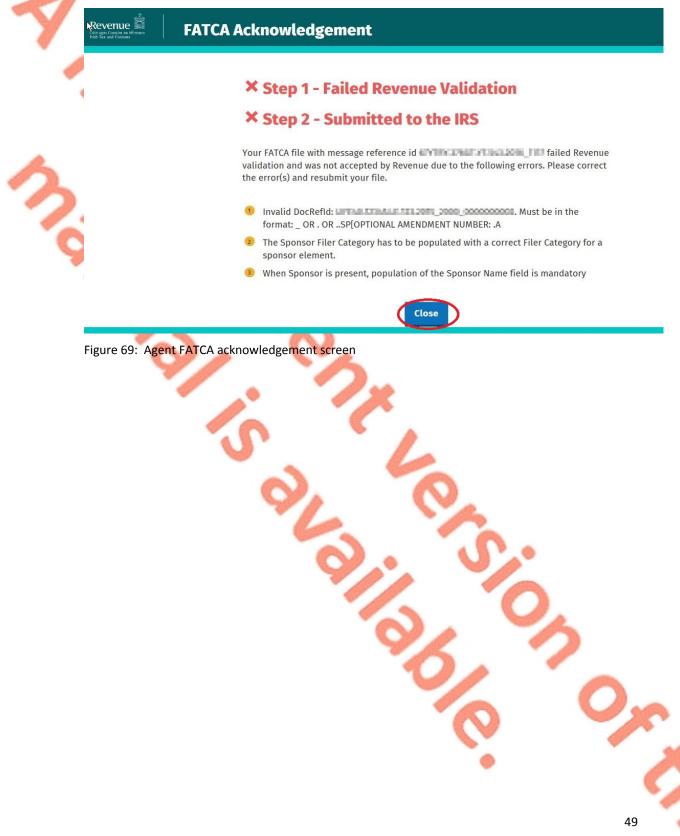

Your FATCA file with message reference id was received by Revenue and will be submitted to the IRS. Refer to the FATCA Intergovernmental Agreement (IGA) for further information regarding exchange dates.

Please Note: You will receive an Accepted or Rejected IRS FATCA Notification in your ROS Revenue Record when the IRS have processed your file.

Clos

Figure 68: Agent FATCA acknowledgement screen

7. Where a FATCA file submission fails, the screen at Figure 69 will be presented. As ROS uses real time validation, files are checked during upload and errors encountered are reflected in the Revenue Record. When this message appears on screen, Click "Close" to return to Tain Services screen in order to rectify the issues outlined and re-submit the XML file subsequent to correction.

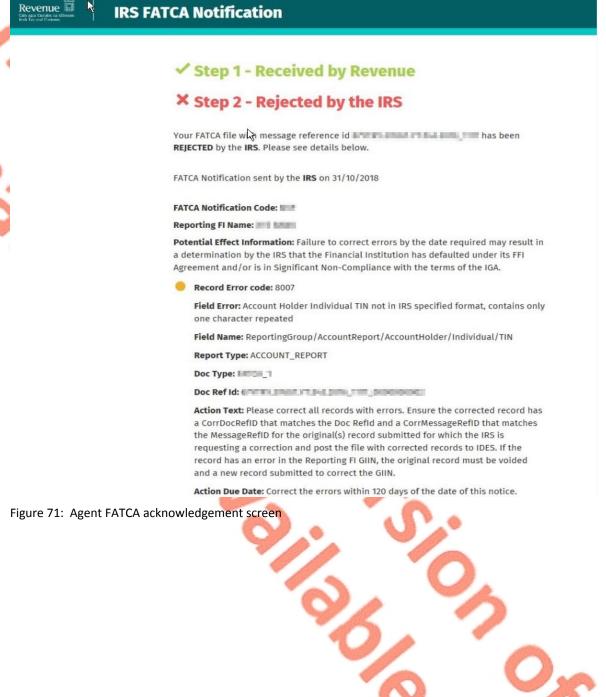

8. Following exchange of the FATCA file with the Internal Revenue Service (IRS), a notification is displayed detailing successful acceptance of the FATCA file by the IRS. Click "Close" to return to the Tain Services screen.

	IRS FATCA Notification
	Step 1 - Received by Revenue
	Step 2 - Accepted by the IRS
1	Your FATCA file with message reference id ACCEPTED by the IRS . Please see details below.

	Financial Institution Count: 1
	Record Count: 1
2	Duplicate Account report Count: 0
	Non-Duplicate Account report Count: 1
A	Pooled report Count: 0
-	Close

9. Following exchange of the FATCA file with the IRS, if a notification is displayed detailing that the FATCA file has been rejected by the IRS, the Agent should return to the Tain Services screen, rectify the issues outlined and subsequently re-submit the XML file.

Each error also contains an instruction stating: "Action Due Date: Correct the errors within 120 days of the date of this notice."

IRS FATCA Notification

Appendix I – ROS Registration & Reporting Entity Registration

5.1 Register for ROS

This step is only relevant if the Customer is not already registered for ROS.

The Customer must register for ROS using the Tax Registration Number provided by Revenue. If the Customer does not have a Tax Registration Number but has a FATCA Reporting Obligation in Ireland please see Section 5.2 in order to obtain a Reporting Entity Number.

Details on how to register for ROS are available on the <u>Revenue website</u>.

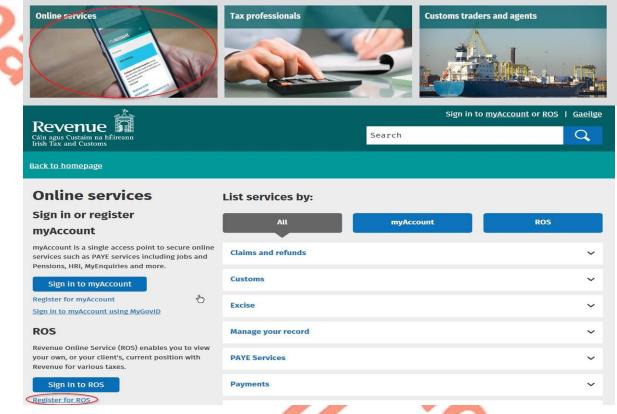

Figure 72: Revenue website screen

For queries relating to ROS please contact the Revenue ROS Technical Helpdesk:

- Email at roshelp@revenue.ie
- Telephone at 01 738 3699, International customers may contact via the email address above or call +353 1 738 3699

5.2 Register as a Reporting Entity

This is a Customer that is only being registered with Revenue in order to file Reporting Obligations (i.e. they have no tax obligations in Ireland).

If the Customer does not have a Tax Reference number and is not registered for ROS, but is obliged to fulfil a FATCA Reporting Obligation, the Customer must register with Revenue as a '**Reporting Entity**'. This process should not be confused with a Tax Registration. Where a Customer registers as a Reporting Entity, it will only be able to fulfil its FATCA Reporting Obligations, that is, it is not required to file tax returns e.g. Corporate Tax returns.

In order to register as a Reporting Entity, the Customer must contact VIMA on +353 1 7383652. The Customer will be issued with a Reporting Entity Registration Number, which will be in the format of 7 digits followed by 2 letters (e.g. 1234567AA).

6. Appendix II – Agent Creating Reporting Entity Number

6.1 Creating a Reporting Entity as an Agent

A Reporting Entity is created only in cases where the Customer has no tax obligations in Ireland but needs to register with Revenue in order to fulfil their Reporting Obligations.

If the Customer does not have a Tax Reference Number and is not registered on ROS but is obliged to register on ROS to fulfil a FATCA Reporting Obligation, the Agent must register the Customer with Revenue as a '**Reporting Entity**'. This process should not be confused with a Tax Registration. Where a Customer is registered as a Reporting Entity, the Customer will only be able to fulfil its FATCA Reporting obligations, that is, the Customer is not required to file tax returns e.g. Corporate Tax returns. Where a Client already has an Irish Tax Registration Number or Reporting Entity Number, this option should not be used as it will create duplicate filing obligations.

When an Agent is registering a Customer as a Reporting Entity for FATCA Reporting purposes, it is possible for an Agent to register a FATCA Reporting Obligation at the same time. The process is set out in steps 6.1.1 to 6.1.12 below.

For queries relating to ROS please contact the ROS Technical Helpdesk:

- Email at roshelp@revenue.ie
- Telephone at **01 738 3699**, International customers may contact via the email address above or call +**353 1 738 3699**

For queries relating to registering a Reporting Obligation, please contact Revenue's VIMA (VIES, Intrastat and Mutual Assistance) office:

- Via MyEnquiries, selecting AEOI (Automatic Exchange of Information) and FATCA
- Telephone at +353 1 7383652

- 1. Log into ROS.
- 2. On the "Tain Services" tab, select "Register New Reporting Customer".

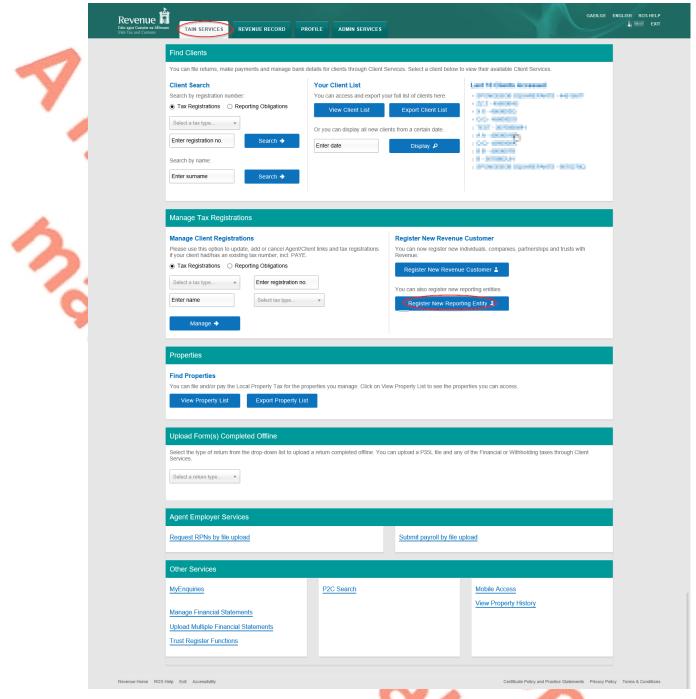

Figure 73: Agent Client search screen

Select "FATCA Reporting Obligation" and click "Next". 3.

7. Appendix III – FATCA Additional Schema Guidance

Following the first filing of FATCA returns and exchange with the United States, Revenue wishes to advise Financial Institutions (FI) of the following changes to file validation, which will be applied to the filing Financial Institution of FATCA 2015 financial account information in 2016, and to subsequent filings.

Financial Institutions should note that Revenue will allow a standard naming convention and an alternative naming convention. Financial Institutions should apply one or other of these naming conventions and the two naming conventions cannot be mixed. For example, where a Financial Institution chooses the alternative naming convention for the MessageRefID element (as illustrated at 7.2 below), the alternative naming convention for the DocRefID element (as illustrated at 7.4) must also be used. This is to ensure compliance with the IRS validation of the DOCREFID which must start with the GIIN and followed by a full stop.

FATCA Returns should be based on the FATCA XML SCHEMA GUIDE (V2.0)

7.1 XML schema element reference – MessageRefID

One of the main issues experienced with rejected FATCA XML files was in relation to this field. FI's failed to populate this field or included a reference which was duplicated in other files. Each FATCA XML file submitted by an FI should have a unique value in this field.

For FATCA files submitted to Revenue since 2016, the following naming convention should be applied for the MessageRefID field:

Element	MessageRefID
Datatype:	xsd: string
Pattern:	<reporting fi="" giin="">.<reporting year="">_<unique id="" sequence=""></unique></reporting></reporting>
Description:	 <reporting fi="" giin=""> is the GIIN for the reporting FI associated with the reporting group</reporting> Period character (.) <reporting year=""> is the 4-digit reporting year that the data in the file relates to</reporting> Underscore <unique 4-digit="" id="" sequence=""> is a sequence id for each file being uploaded to Revenue. The first file uploaded to Revenue should have a Sequence ID of 0001, and this number should be incremented for each individual file uploaded. The sequence number must be unique within each FATCA year.</unique>
Example:	AB012R.00001.ME.372.2015_0001 Where AB012R.00001.ME.372 = Reporting FI GIIN 2015 = Reporting Year 0001 = This is the first file that this FI has uploaded to Revenue

Element	MessageRefID			
Datatype:	xsd:string			
Pattern:	<timestampwhenmessagecreated>_<reportingfigiin></reportingfigiin></timestampwhenmessagecreated>			
Description:	• <timestampwhenmessagecreated> Timestamp when the</timestampwhenmessagecreated>			
	message is created in the format: YYYYMMDDTHHMMSSZ			
	 Underscore character (_) 			
	 <reportingfigiin> is the GIIN for the reporting FI</reportingfigiin> 			
	associated with the reporting group			
Example:	20160226T093830Z_AB012R.00001.ME.372			
	Where			
	20160226T093830Z = TimestampWhenMessageCreated			
	AB012R.00001.ME.372= ReportingFIGIIN			

7.2 Alternative MessageRefID Naming Convention

7.3 XML Schema element reference – DocRefID

The IRS recently issued guidance in relation to the format for this field and the format should be applied to filings made from 2016 onwards. As is the case with the MessageRefID element, every record, inside every FATCA XML file submitted by an FI should have a unique value in this field. The following format is required by Revenue for standardised DocRefID's:

Element	DocRefID
Datatype:	xsd: string
Pattern:	<messagerefid>_<record number="" sequence=""></record></messagerefid>
	Note: This pattern conforms to the IRS Schema Guidance
Description:	 <messagerefid> is the MessageRefID of the file in which the record appears – format for this outlined above</messagerefid> Underscore (_) <record number="" sequence=""> is a unique 10-digit sequence id that uniquely identifies the record within a particular file. For Example – the 5th record in a particular file should have Record Sequence number 000000005</record>
Example:	AB012R.00001.ME.372.2015_0001_000000005 Where AB012R.00001.ME.372 = Reporting FI GIIN 2015 = Reporting Year 0001 = This is the first file that this FI has uploaded to Revenue 000000005 = Unique 10-digit sequence id that uniquely identifies the record within a particular file.

7.4 Alternative DocRefID Format

The alternative DocRefID format has a different format for the 5 elements that should contain a DocRefId. The 5 elements are:

- 1. Reporting FI
- 2. Sponsor
- 3. Intermediary
- 4. Account Report
- 5. Nil Report

Reporting FI DocRefld Format

Element	DocRefID		
Datatype:	xsd:string		
Pattern:	<reportingfigiin>.<reportingyear>.RF<sequencenumber> [OPTIONAL AMENDMENT NUMBER: .A<amendmentsequencenumber>]</amendmentsequencenumber></sequencenumber></reportingyear></reportingfigiin>		
Description:	 <reportingfigiin> is the GIIN for the reporting FI associated with the reporting group.</reportingfigiin> Period character (.) <reportingyear> is the 4-digit reporting year that the data in the file relates to. .RF <sequencenumber> is a unique ID to ensure the uniqueness of the reference.</sequencenumber> [OPTIONAL AMENDMENT NUMBER:. A<amendmentsequencenumber> is used to identify an amendment. This should only be used for amendments. The AmendmentSequenceNumber should represent the amendment numbers i.e. the first amendment should have .A1.</amendmentsequencenumber> </reportingyear> 		
Example:	Original: AB012R.00001.ME.372.2015.RF1		
	Amendment: AB012R.00001.ME.372.2015.RF1.A1		

26/0

2. **Sponsor DocRefid Format**

	Element	DocRefID
	Datatype:	xsd:string
ろう	Pattern:	<pre><sponsoringfigiin>.<reportingyear>.SP<sequencenumber>[OPTIONAL AMENDMENT NUMBER: .A<amendmentsequencenumber>]</amendmentsequencenumber></sequencenumber></reportingyear></sponsoringfigiin></pre>
	Description:	 <sponsoringfigiin> is the GIIN in the Sponsor element.</sponsoringfigiin> Period character (.) <reportingyear> is the 4-digit reporting year that the data in the file relates to.</reportingyear> .SP <sequencenumber> is a unique ID to ensure the uniqueness of the reference.</sequencenumber> [OPTIONAL AMENDMENT NUMBER: .A<amendmentsequencenumber> is used to identify an amendment. This should only be used for amendments. The AmendmentSequenceNumber should represent the amendment numbers i.e. the first amendment should have .A1.</amendmentsequencenumber>
	Example:	Original: AB012R.00001.ME.999.2015.SP1 Amendment: AB012R.00001.ME.999.2015.SP1.A1

7.5 XML schema element reference – BirthDate

Reporting FIs should include a date of birth if a U.S. TIN is not available for a U.S. resident account holder or substantial owner. The date of birth must be properly formatted per IRS Publication 5124 and placed in the Birth Info/Birthdate subelement of the Accountholder or Substantial Owner element, as appropriate. If a date of birth is provided in lieu of a TIN, in line with IRS Notice 2017-46, filers should include a string of nine consecutive capital letter "A"s ("AAAAAAAAA") in the TIN sub-element for the Accountholder or Substantial Owner element. This TIN should be marked with the "issuedBy" attribute set to "US".

7.6 XML schema element reference – TIN

A value for a TIN data element must be either in a GIIN format or in one of the following formats for a U.S. TIN to be considered valid:

- Nine consecutive numerical digits without hyphens or other separators (e.g., "123456789")
- Nine numerical digits with two hyphens, one hyphen entered after the third numeric digit and a second hyphen entered after the fifth numeric digit (e.g., "123-45-6789")
- Nine numerical digits with a hyphen entered after the second digit (e.g., "12-3456789")

The Account Holder TIN must be provided and cannot be blank characters in the TIN data sub-element. If an individual or entity Account Holder does not have a TIN, for years prior to 2020, enter nine consecutive capital letter "A"s ("AAAAAAAAA") in the TIN data sub-element, otherwise you will receive an error message. The former TIN placeholder of 9 zeros ("000000000") will no longer be accepted in the FATCA XML file. The "issuedBy" attribute of the TIN should be populated with a value of "US" for a US TIN.

Sequencing of TIN's: If supplying multiple TIN numbers – i.e: an Irish TIN and a US TIN for an Account Holder, the US TIN should be the first TIN that appears in the record. It should be noted that the inclusion of a valid US TIN is **mandatory** for all accounts from 2017 except in cases covered by <u>IRS Notice 2017-46</u> i.e. for individual account holders that meet the criteria in the Notice, but not for entity account holders.

From 2020, a US TIN is **mandatory** for all accounts as the exception noted in <u>IRS</u> <u>Notice 2017-46</u> will no longer apply.

For reporting periods from 2020 onwards, if an Account Holder does not have a TIN, you may continue to enter nine consecutive capital letter "A"s ("AAAAAAAAA"), or you may enter the codes listed below, in the TIN data sub-element, however doing so will now cause you to receive an error message. The record level error, when it relates to this circumstance only, does not mean your file has been rejected. The file will still be exchanged with the US authorities, and the error notice will provide 120 days to correct the issue.

After the 120 days if the issue is not resolved the IRS will not, in the case of an individual account, automatically conclude that there is significant non-compliance; however, at this stage the IRS will take account of the facts and circumstances leading to the absence of the TIN, such as the reasons why the TIN could not be obtained, whether the FI has adequate procedures in place to obtain TINs and the efforts made by the FI to obtain them. This process will involve the IRS examining the use of the TIN Placeholder codes, or in certain circumstances the IRS will contact Revenue who will then engage with the FI. See IRS FAQ3 Reporting for more detail.

In order to better understand the reasons why a Foreign Financial Institution (FFI) in a U.S. Model 1 IGA jurisdiction may not have been able to obtain a U.S. TIN and to help in the 120 day period mentioned in the preceding paragraph, the IRS has developed a series of TIN Placeholder codes that may be used by an FFI to populate the TIN field in circumstances where the TIN is not available, as an alternative to enter nine consecutive capital letter "A"s ("AAAAAAAAA"). The use of these codes is optional and does not mean that an FFI will not be at risk of being found significantly non-compliant due to a failure to report each required U.S. TIN.

The TIN Placeholder codes (published May 2021) are as follows:

- 222222222 Pre-existing individual account with only U.S. indicia being a U.S. place of birth.
- 333333333 New individual account that (1) has indicia of a U.S. place of birth, and (2) either:

(a) a change in circumstances causing the self-certification originally obtained at account opening to be incorrect or unreliable, and a new self-certification has not been obtained, or

(b) was below the threshold for documenting and reporting the account at the time of account opening and subsequently exceeded the threshold, and a self-certification has not been obtained.

• 44444444 – Pre-existing individual and entity account that (1) has U.S, indicia other than a U.S. place of birth, and (2) either:

(a) a change in circumstances, causing the self-certification or other documentation originally obtained to be incorrect or unreliable, and a new self-certification or other documentation has not been obtained, or

(b) was below the threshold for documenting and reporting the account at the time of account opening and subsequently exceeded the threshold, and a self-certification or other documentation has not been obtained.

555555555 – New individual and entity account that has a U.S. indicia other than a U.S. place of birth, and (2) either:

(a) a change in circumstances causing the self-certification or other documentation originally obtained to be incorrect or unreliable, and a new self-certification or other documentation has not been obtained, or

(b) was below the threshold for documenting and reporting the account at the time of account opening and subsequently exceeded the threshold, and a self-certification or other documentation has not been obtained.

- 6666666666 Pre-existing entity account with account balance exceeding \$1,000,000 held by a passive Non-Financial Foreign Entity (NFFE) with respect to which no self-certifications have been obtained, and no U.S. indicia has been identified in relation to its controlling persons.

The above codes may only be used by FFIs in jurisdictions with a U.S. Model 1 IGA.

In January 2023, the IRS issued additional guidance <u>IRS Notice 2023-11</u> and <u>FAQ6</u> <u>Reporting</u> detailing temporary relief procedures for Reporting Financial Institutions for reporting of US TINS for certain Pre-existing Accounts. This relief applies to the reporting periods 2022, 2023 and 2024.

Full details of this relief is available in paragraph 4.3 of <u>TDM 38-03-22</u>, however one of the conditions of the relief is the mandatory use of the TIN Placeholder Codes:

 TIN Placeholder Codes (published May 2021) may be used for the Reporting Period 2022 for all accounts that are missing a US TIN, alternatively TIN Placeholder Codes (Published February 2023) may be used.

• For the Reporting Periods 2023 and 2024 TIN Placeholder Codes (Published February 2023) may be used.

The TIN Placeholder codes (Published February 2023) are as follows:

- 22222222 Pre-existing individual account with only U.S. indicia being a U.S. place of birth, other than an account reported under code 000222111. This code takes precedence if any other code (other than 000222111) could also be applicable.
 - 000222111- Pre-existing depository individual account with only U.S. indicia being a U.S. place of birth.

Additionally, FFI must determine that the account holder is a **resident of the jurisdiction** where the account is maintained for AML and tax purposes. For reference, "depository account" has the meaning defined in the applicable Model 1 Intergovernmental Agreement (Model 1 IGA). This code takes precedence if any other code could also be applicable.

- 3333333333 New individual account that:
- (1) has indicia of a U.S. place of birth, and
- (2) either:

(a) has a change in circumstances causing the self-certification originally obtained at account opening to be incorrect or unreliable, and a new self-certification has not been obtained, **or**

(b) was below the threshold for documenting and reporting the account at the time of account opening and subsequently exceeded the threshold, and a self-certification has not been obtained.

44444444 – Pre-existing individual or entity account that:
 (1) has U.S. indicia other than a U.S. place of birth, and
 (2) either:

(a) has a change in circumstances that either results in one or more U.S. indicia being associated with the account or causes a self-certification or other documentation originally obtained to be incorrect or unreliable, and a valid self-certification or other documentation has not been obtained subsequent to the change in circumstances, **or**

(b) was below the threshold for documenting and reporting the account on the determination date provided in the applicable Model 1 IGA and subsequently exceeded the threshold, and a self-certification or other documentation has not been obtained.

(1) has a U.S. indicia other than a U.S. place of birth, **and** (2) either:

(a) has a change in circumstances causing the self-certification or other documentation originally obtained to be incorrect or unreliable, and a new

self-certification or other documentation has not been obtained, **or** (b) was below the threshold for documenting and reporting the account at the time of account opening and subsequently exceeded the threshold, and a self-certification or other documentation has not been obtained.

 6666666666 – Pre-existing entity account held by a passive NFFE with one or more controlling persons with respect to which self-certifications have not been obtained, and no U.S. indicia have been identified in relation to any controlling persons.

777777777 - Dormant Accounts

For pre-existing accounts where there is no TIN available and the account has been dormant or inactive, but remains above the reporting threshold, also known as a "dormant account." A "dormant account" is one that meets the definition set out in U.S. Treasury Regulations §1.1471-4(d)(6)(ii) and had had no financial activity for three years, except for the posting of interest. If an account could be classified into multiple TIN codes, the other code takes precedence.

999999999 - Any account for which the FFI cannot obtain a TIN and none of the other TIN codes would be applicable. The use of this code indicates that an FFI has completed its review of accounts without U.S. TINs and has in good faith applied TIN codes to records when applicable.

TIN Placeholder codes published May 2021 and February 2023 are currently accepted by Revenue validation for the relevant Reporting Periods.

It should be noted that use of TIN Placeholder Codes (published May 2021), or TIN Placeholder codes (Published February 2023) will still lead to the generation of an error message containing record level errors as set out in above in this section and in IRS FAQ6 Reporting.

7.7 XML schema element reference – FilerCategory

Filer Category is mandatory, either on the sponsor or in the ReportingFI element.

If a Sponsor is present, the Sponsor element must contain a FilerCategory and the ReportingFI element must not. If a Sponsor is not present, the ReportingFI must contain a FilerCategory.

Please refer to <u>FATCA XML Schema Guide (V2.0)</u> for further guidance.

7.8 Character Encoding

All FATCA files should be character encoded UTF-8 without Byte Order Marker (BOM).

7.9 ROS Valid Characters

Only the following characters are permitted:

a b c d e f g h i j k l m n o p q r s t u v w x y z A B C D E F G H I J K L M N O P Q R S T U V W X Y Z O 1 2 3 4 5 6 7 8 9 á é í ó ú Á É Í Ó Ú £ \$ € % & * - + = () < > : ; , . "'@~#?!/\

Please note that, while # is a valid character for ROS, it is not however valid for the FATCA schema and should not be used.

7.10 FATCA XML forbidden and restricted characters

If a FATCA XML file contains one or more of the following characters, their presence will cause the file to be rejected. These characters should be replaced by the following predefined entity references to conform to XML schema best practices.

Character	Description	Entity Reference
&	Ampersand	&
<	Less Than	<

If a FATCA XML file contains one or more of the following characters, their presence will not cause a file error. However, it is recommended that the characters are replaced by the following predefined entity references to conform to XML schema best practices.

Character	Description	Entity Reference	
>	Greater Than	>	
	Apostrophe	'	_
	Quotation Mark	").

If a FATCA XML file contains one of the following combinations of characters, the file will be rejected. These combinations of characters are not allowed. To prevent file errors, please do not include any of these combinations of characters.

Character	Description	Entity Reference		
	Double Dash	N/A		
/*	Slash Asterisk	N/A		
&#</td><td>Ampersand Hash</td><td>N/A</td><td></td></tr></tbody></table>				

7.11 Pooled Reporting

FATCA IDES Technical FAQ C19 – Pooled reports may not be submitted by FIs in Model 1 IGA jurisdictions.

Ireland has signed a Model 1 IGA with the US, and as such Pooled Reporting is not permitted.

Any files with Pooled Reporting will be rejected by ROS.

7.12 Correcting, Voiding and Amending FATCA Submissions - Sample XML Files

Should you need to Correct, Void or Amend your submission, please refer to the guidance and the sample XML files which can be accessed at the links below.

Each Correct, Void or Amend submission is linked to the original file 'FATCA 1' i.e. the CorrMessageRefId and CorrDocRefId fields in the new submissions will match the data in the originals.

Click <u>here</u> to access sample original file

FATCA 2 – Corrected:

Correction General Rules

- You should correct a record in response to a record-level error notification. Special rules for specific errors may apply.
- **<u>Do not</u>** amend a record in response to a record-level error notification.
- **<u>Do not</u>** file a separate voided report if you corrected or amended a record.

Click here to access a sample Corrected file

FATCA 3 – Void:

Void General Rules

- You may void a record at any time after you receive a notification or become aware of inaccurate information.
- You may void a record if the entire record was filed in error.
- You may void a record and submit a new record if there is an error in one of the fields, such as:
 - No Account Holder or Substantial US Owner TIN
 - Incorrect Account Holder or Substantial US Owner TIN
 - Incorrect Account Holder or Substantial US Owner Name
 - o Incorrect Account Holder or Substantial US Owner Name and Address

Before you void a record, be sure the original record is no longer valid. All data must match the original file.

• A voided record is permanently deleted. You can submit a new record (FATCA1) to replace a previously voided record, if needed.

Click here to access sample Void file

FATCA 4 – Amended:

Amend General Rules

- You may amend a record at any time after you have received a valid notification and become aware of inaccurate information.
- **Do not** amend a record in response to a record-level error notification; submit a corrected report (FATCA2) instead.
- An amended record updates an existing record from a previously filed report.

Click here to access a sample Amended file

7.13 Passive NFFE which is not a US Entity

In the case where a Passive NFFE that is not a US Entity has a Controlling Person who is a US person the FATCA Schema requires a US TIN to be entered for the Passive NFFE or an error message is generated. However, as the Passive NFFE is not a US Entity it does not have a US TIN, and therefore a US TIN cannot be included. In order to get around this issue the IRS has issued guidance, which is available at ICMM FAQs Q3 under the "Populating the TIN Field" section.

This guidance applies to the circumstances above, and an error message will not be generated if this guidance is followed. The guidance is as follows:

A TIN element must be included for both Passive NFFE and US Controlling Person.

For the US Controlling person, you must include a validly formatted US TIN in the TIN element.

For the Passive NFFE you must include the foreign TIN (with the "TIN Issued by" element populated with the issuing country code) for the foreign individual/entity. If there is no foreign TIN available for the foreign individual/entity, you may include your country code in the "TIN Issued by" element and the characters "NA" (to indicate "Not Available") in the TIN element. (See Example below)

<ftc:AccountHolder> <ftc:Individual> <sfa:ResCountryCode>CA</sfa:ResCountryCode> <sfa:TIN issuedBy="LI">NA</sfa:TIN> <sfa:Name>

<ftc:SubstantialOwner> <ftc:Individual> <sfa:TIN issuedBy="US>123456789</sfa:TIN>

If you omit the TIN element entirely for either the Passive NFFE or US Controlling Person, or insert blank spaces in the TIN element, you will receive a "TIN Not Populated" error, regardless of whether the other TIN field is populated with a US TIN."

Appendix IV – Setting Sub-User Permissions on ROS

This section details how to allow registration permissions on a ROS user sub certificate for FATCA Reporting Obligations.

Instructions for creating new sub-users are available here.

Please contact the ROS Technical Helpdesk if further assistance is required:
