Introduction

The purpose of this manual is to provide information on claiming an unemployment repayment online.

1 Accessing PAYE Services: Claiming Unemployment Repayment

The 'Claim unemployment repayment for the current year' service is accessed from PAYE Services in myAccount. The year defaults to the current tax year. Customers must first register for myAccount to use the service.

3 Making a Claim for Unemployment Repayment

When a customer selects "Claim unemployment repayment for the current year" and no blocking rules have been broken, they will be brought to the claim screen which provides information on who can claim and when it can be claimed.

The customer should check that their records are correct. If any updates are required, they should select "Manage your tax for the current year". They will be shown an overview of their current year details and can make any necessary changes e.g., declare non-PAYE income or claim additional tax credits.

The customer can proceed when they confirm they have checked their records.
