- [Betting Duty](#)

Revenue Annual Report 2023 and Research Publications

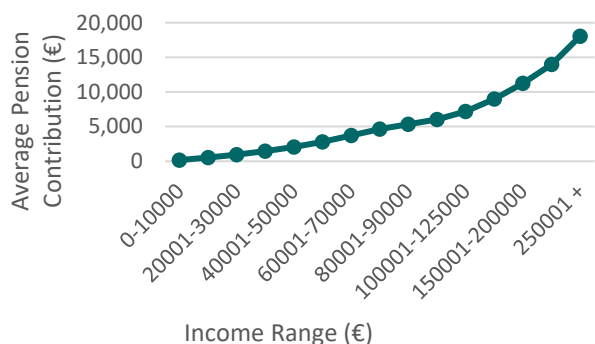

Revenue's Annual Report for 2023 was published on 25 April 2024 and was accompanied by additional research & statistical publications, including the first Revenue statistical publication on Customs Duties.

- [Customs Duties in 2023](#)
- [Corporation Tax 2023 Payments and 2022 Returns](#)
- [Income Tax 2023: Insights on PAYE Taxpayers](#)
- [VAT Payments and Returns 2023](#)
- [Vehicle Registration Tax \(VRT\) in 2023](#)
- [PAYE Customer Survey 2023](#)
- [Illegal Tobacco Products Research Surveys 2023](#)
- [Evaluation of Budget 2023 Compliance Measures](#)
- [Temporary Business Energy Support Scheme Final Statistics](#)

A selection of these are highlighted on the next page.

Income Tax 2023: Insights on PAYE Taxpayers

Average Contribution of Pension Contributors

Read the full report [here](#).

Pensions contributions by employees and employers (through employments) totalled €4.0 billion and €3.8 billion respectively in 2023. 1 in 3 employees made a pension contribution in 2023. As shown in the graph, pension contributions typically increase with income.

The gender breakdown of pension contributors in 2023 was 52 per cent female to 48 per cent male. Although females made up a higher share of contributors, males contributed more by value, €2.2 billion compared to €1.8 billion by females.

Revenue's Survey of PAYE Customers 2023

72 per cent of respondents were either satisfied or very satisfied with Revenue and the services provided.

The top three reasons customers engaged with Revenue were to review their Preliminary End of Year Statement (PEOYS), to enquire about tax credits and tax reliefs, and to view their employment detail summary.

The survey report also examined key aspects of PAYE taxpayers' tax literacy. Most PAYE customers (85 per cent) actively monitor the income and transfers they receive. 81 per cent knew how to inform Revenue of other sources of income they received. However, 22 per cent indicated they struggle to complete tax credit or relief claim forms.

Read the full report [here](#).

Customs Duties in 2023

€586m in Customs Duties was collected in 2023, a fall of 5 per cent. The decrease was primarily due to declines in the import of clothing and fertiliser.

Read the full report [here](#).

There has been a steep increase in customs duties since 2021, when Great Britain became a Third Country.

China is the top country of origin for customs duties, while the US is the top country of origin for imports by value.

Recent updates and Publications

All our recent updates and publications are listed below and, as always, Revenue is committed to providing information in open and machine-readable formats wherever possible.

For any queries or feedback in relation to our statistics, we can be contacted through statistics@revenue.ie.

Please note that media queries should be directed to Revenue's Press Office in the first instance revpress@revenue.ie.

Excise Registers

The Excise Acts, and their associated regulations, require that Revenue publish a series of registers for Excise customers. These registers are updated monthly:
