### 1. Introduction

In January 2026, as part of the Union Customs Code (UCC) Work Programme, Revenue will be upgrading our existing Automated Import System (AIS) to AIS V2. This upgrade is being deployed to introduce:

- A new data set and new messages (aligned to Revised Annex B)
- Centralised Clearance for Import Phases 1 and 2 simultaneously

### 2. Key Dates:

Key dates for the release of AIS-V2 are as follows:

- Public Interface Testing (PIT) will be available to software developers from 16<sup>th</sup> June 2025
- Go Live and start of transition period – 20<sup>th</sup> January 2026
- End of Transition period – 20<sup>th</sup> April 2026

### 2. Trader Specifications

Updated trader specifications that support the latest version of the EU CCI specifications (DDNCA and Appendices 1.0.2 v3.00), along with some revisions to support national import flows have recently been published on the Revenue website at [UCC- Automated Import System \(AIS\) V2 and CCI](#) and include the following:

- AIS V2 and CCI Trader Guide
- AIS V2 and CCI Message Exchange
- AIS V2 and CCI Business Rules and Conditions
- AIS V2 and CCI Code List
- AIS V2 and CCI Message Structure
- AIS V2 and CCI Schemas

### **3. Further Information**

It should be noted with reference to the message structure document, there will be a subset of AIS V2 national business rules and conditions that will also need to be applied to CCI declarations. This information will be contained in the next update to the trader specifications.
