Statement of Commitment

Commitment to the Irish Statistical System Code of Practice (ISSCoP)

The Office of the Revenue Commissioners confirms its commitment to best practice in the production of Official Statistics as outlined in the Irish Statistical System Code of Practice (ISSCoP).

The Code of Practice comprises five principles:

1. Professional independence
2. Timeliness and punctuality
3. Accessibility and Clarity
4. Commitment to Quality
5. Statistical confidentiality

The main purpose of the Code of Practice is to improve trust and confidence in Official Statistics produced and disseminated by public bodies, reinforcing their independence, integrity and responsibility, and to enhance the quality of Official Statistics.
