Overview

The COVID-19 Temporary Wage Subsidy Scheme (TWSS) is operated by Revenue through the payroll system and is available to employers who keep employees on payroll through the COVID-19 pandemic, meaning employers can retain links with their employees for when business picks up after the crisis.

Expenditure on TWSS

The Exchequer cost* of TWSS in any given week is a factor of the number of employees on the Scheme, the instance of pay frequencies that fall within the week and the subsidy amounts being paid to individual employees.

The number of employees in receipt of a TWSS subsidy in a given week depends on their pay frequency. An "outflow" is counted where there is an apparent permanent exit from the Scheme. Revisions to the latest available outflow data may become more pronounced as the economy continues to reopen.

Employee Duration on TWSS

For example, 7% of current TWSS employees have been on the Scheme since the week of March 27th, 17% since the week of April 3rd, etc.
