Automated Import System (AIS)
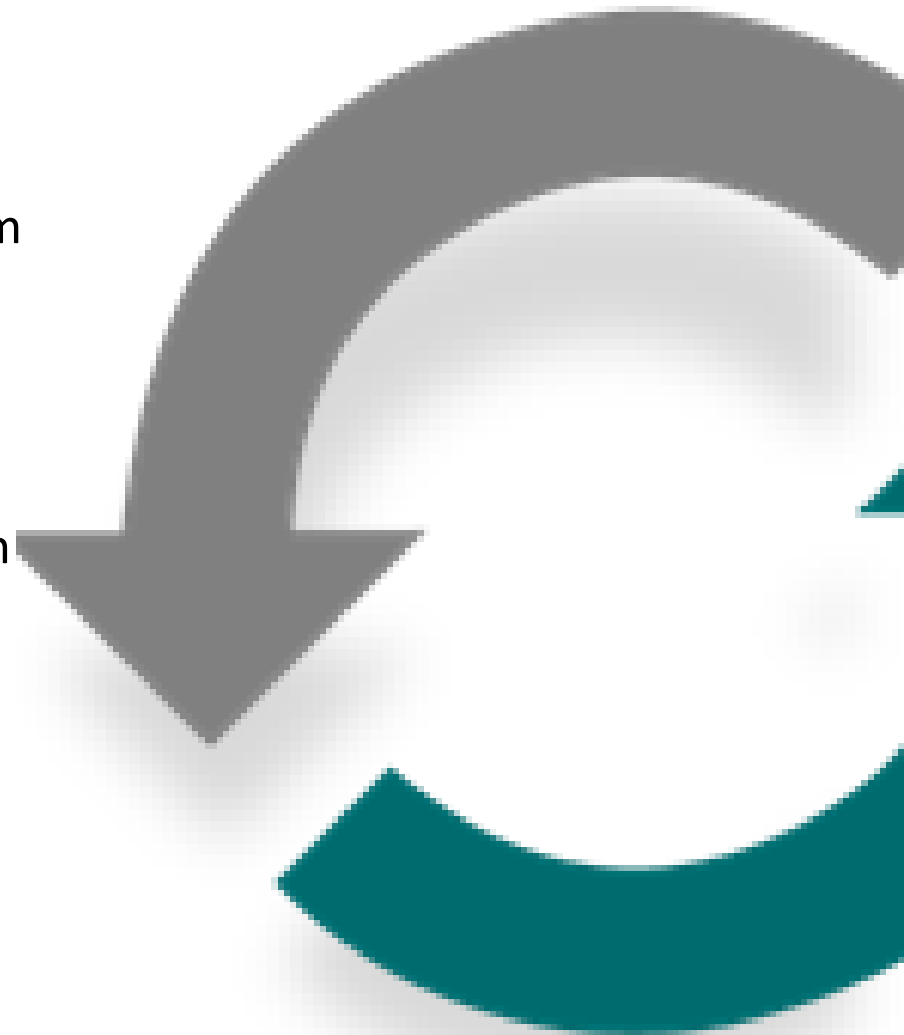

Information for Carriers

Revenue
Cáin agus Custaim na hÉireann
Irish Tax and Customs

Automated Import System - AIS

AIS is Revenue`s national import system that trade must use to lodge import declarations
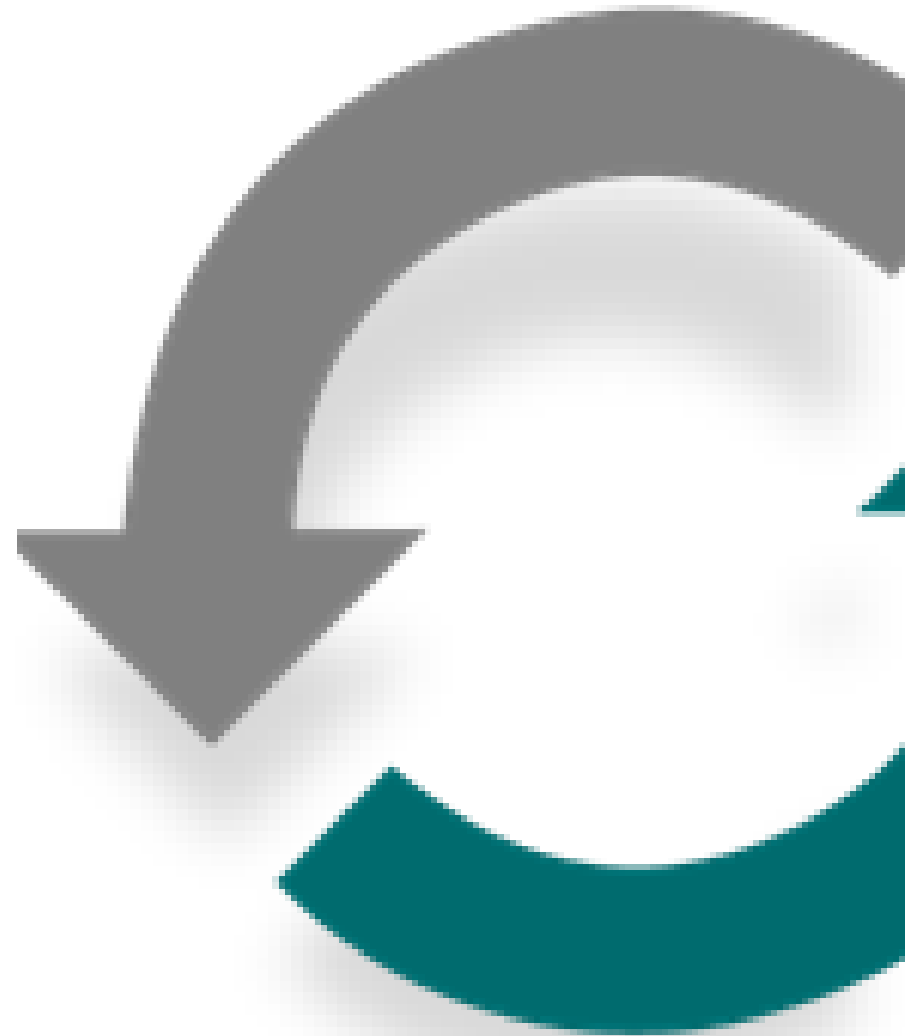

Without **AIS**, it will not be possible to complete customs import formalities in respect of third-country goods into Ireland

AIS replaces Automated Entry Processing (AEP) and e-Manifest for Imports

Automated Import System - AIS

All customs import supply chain operators must use software that can interface with **AIS**

Impact of AIS on Air & Sea Carriers

- Presentation Declaration (G3) & Temporary Storage Declaration (G4) lodged into AIS - replacing e-Manifest declaration in respect of imports of non-union goods **only**

- ENS (safety & security declaration), where applicable will be lodged into ICS (Import Control System) - ENS cannot be used to generate the G3/G4

- Electronic Transport Document (D3) lodged into AIS where applicable

Supply Chain Communication

- The MRN of the G3/G4 must be included on all declarations releasing goods out of a TSF and into a customs procedure

- Carrier must ensure the MRN of the G3/G4 is communicated directly or indirectly to the entity completing the customs declaration

- Where a customs import declaration is pre-lodged, the combined G3/G4 should reference the MRN of the pre-lodged declaration. For this to happen there must be good communication between the entity lodging the customs declaration and the carrier

AIS Entry Scenarios

- We have prepared two brief presentations describing a variety of entry scenarios for the following movements of goods

  - Air

  - Sea LOLO

- The presentations can be found on this web page

- Please study the various scenarios to see what Revenue expects will happen in relation to these movements

Trader Support

- **IT Support**
  - technical guides on website
  - eCustoms email – ecustoms@revenue.ie

- **Policy Support**
  - Updated Trader guides
  - National Policy & Operations Branch email - importpolicy@revenue.ie

- **Trader Engagement**
  - Website www.revenue.ie
  - Letters
  - One to one meetings
  - Skype / Teleconference Meetings
