3. Generate a Control Notice – IE560

Please note the following functionality is available in the current version of PIT.

For the purpose of supporting the test, the below rules are set up to make a declaration go ‘Under Control’:

1. Physical Examination – Red Routing
2. Documentary Check – Orange Routing

RISK MANAGEMENT SYSTEM	
IE515 The Country of Origin field is equal to ‘FR’	The declaration will be deemed “Documentary Check – Orange Routing”
IE515 The Country of Origin field is equal to ‘AT’	The movement is classified as “Physical Examination – Red Routing”

4. TARIC

Tariff data is stubbed and all commodity codes will be accepted by the system, there will be no Tariff validation upon submission of the declaration.

5. Indirect Export where IE is the Office of Exit

The PIT Support team will provide MRNs where there is an indirect export, where Ireland is the Office of Exit but goods have arrived from another member State and the trader in Ireland needs to submit an IE507.

If you require IE515 MRNs, please raise a service desk ticket to the PIT Support Team where the subject is ‘AES - Request for indirect export MRNs’

6. Transition Period

As of the 26th of October 2022, the PIT4 environment will be in “Transition Period” mode, where TPEndDate will be set as the 1st of December 2023. This is to facilitate Testing for Traders to test sending messages during the Transition Period.
