Property Valuation Guidance

Property Valuation Guidance

This document provides a guide to average market values of properties in a given locality and offers an indicative valuation band for properties depending on type, age and location. It does not provide market values for individual properties. The guidance is primarily based on the market value of properties sold since the year 2010 in the area, adjusted for average price movements in the interim.

This guidance will be helpful in the majority of cases but there are always properties in an area that differ from the average.

Self-assessment requires property owners to honestly assess the market value of their own property. If a property is smaller or larger than the average for the area, is in a significantly poor state of repair or has exceptional or unique features, this will have to be factored into the assessment of the valuation band of the property.

Self-Assessment

You may use this document to help you assess the market value of your property. If your property has certain exceptional or unique features, is smaller or larger than the average for your area, or is in a significantly poor state of repair, you will have to factor this into your assessment of the valuation band of your particular property.

If you follow this guidance honestly and if the guidance is indicating a reasonable valuation for your property, Revenue will accept your assessment. If the guidance is not indicating a reasonable valuation for your property, you should make your own valuation. Revenue retains the right to challenge cases where deliberate under-valuation occurs, even when declared values are in line with the guidance provided because it is clear that Revenue's guidance did not provide a reasonable valuation for your specific property.

This guidance is not relevant in the case of properties with a market value in excess of €1million.

Property Valuation Bands and Ready Reckoner

This document shows the average Local Property Tax (LPT) valuation band for different property types ordered by Electoral District. The valuation band number is shown for each Electoral District, the reference table below indicates the valuation ranges that correspond to each valuation band and the LPT charges for 2013 and 2014 for each band.
