1. Introduction

This guide outlines the options available to traders for the payment of Customs Duty, VAT at the point of import, Excise and VRT on imports through Revenue's Automated Import System (AIS).

2. Deferred Payment:

A deferred payment authorisation allows traders to defer payment of duties and taxes. In all instances lodgment of a Bank guarantee and compliance with the conditions of the authorisation is required. The authorisation allows the approved trader to pay the duties/taxes due by direct debit on a date in the month following the transactions. (Refer to [section](#) of this manual for Direct Debit dates)

See [section 3](#) for further information on setting up a deferred payment.

Excise Traders operating from a warehouse **must have** a deferred payment facility in place. Further information is available at the following link:

[Excise and licences](#)

2.1. Cash Payment – Customs and Excise Traders

In addition to, or instead of the deferred payment scheme, a trader can operate on a cash basis. Once registered for C&E, you automatically have a TAN Account under the C&E registration number. Credit must be available on the TAN account before an import declaration is submitted. Such payments can be made by Credit Card, Debit Card, or transfer from the payer's bank account by Single Debit Instruction (SDI). The option to pay by Credit/Debit card is only available to Business Division or Personal Division customers. It is not available to customers of Large Corporates Division, Medium Enterprises Division or Large Cases - High Wealth Individuals Division. This will allow instant access to the payment on the TAN account without having to contact the relevant cash office. After a transaction is made to a TAN account, any credit remaining rolls over from day to day and month to month. No prior authorisation is required to operate on a cash basis. Revenue's online facility allows taxpayers to make electronic payments. Customers can access this secure online payment facility, either through ROS or My Account.

Further information is available in the [TDM CE Online Payments in ROS and myAccount](#).

2.2. Cash Payments - VRT Traders

In addition to or instead of the deferred payment scheme, a trader can operate on a cash basis. Credit must be available on the TAN account (VRT account) before a VRT return is submitted. Such payments can be made by Credit Card, Debit Card, or transfer from the payer's bank account by Single Debit Instruction (SDI). The option to pay by Credit/Debit card is only available to Business Division or Personal Division customers. It is not available to customers of Large Corporates Division, Medium Enterprises Division or Large Cases - High Wealth Individuals Division. This will allow instant access to the payment on the TAN without having to contact the relevant cash office. After a transaction is made to a TAN account, any credit remaining rolls over from day to day and month to month. No prior authorisation is required to operate on a cash basis. Revenue's online facility allows taxpayers to make electronic payments. Customers can access this secure online payment facility, either through ROS or My Account. If a Trader is not registered for VRT, but submits a payment for VRT, the Trader will automatically be registered for VRT.

Further information is available in the [TDM Vehicle Registration Tax \(VRT\) Online Payments in ROS and myAccount](#).
